

Velocity LBM Built on SAP Business One Lumber and Building Materials

Designed For Your Industry,
Scaled To Your Business,
Ready For Your Future

MANUFACTURING

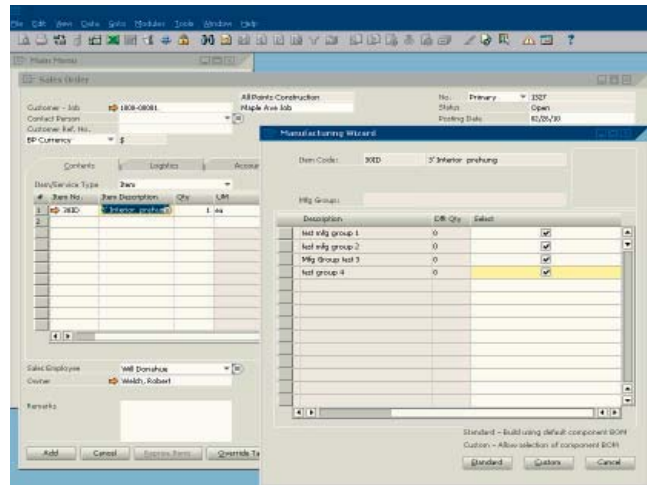

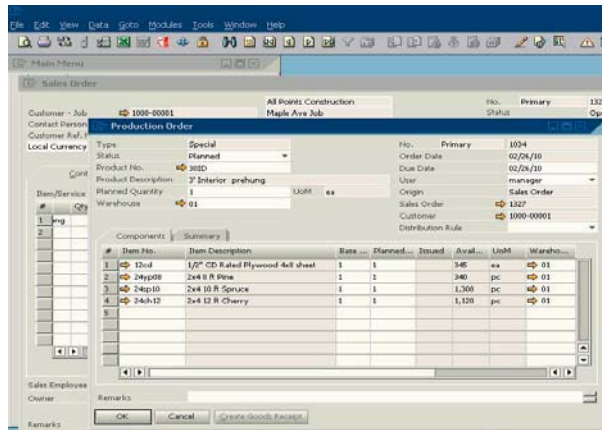

Velocity LBM Manufacturing Helps You:

- Increase employee productivity and eliminate additional data entry with the linkage between Sales Orders and Purchase Orders.
- Boost operating profits with the fully integrated inventory system. With up to date item costs you are assured of accurate pricing and product margins.
- Maximize your workflow efficiency.
- More effectively track MFG items throughout the sales and production process.
- Manage build-for-stock production needs more proficiently.
- Analyze data to enable you to maintain your competitive edge.
- Automate process flow to reduce input errors with re-entry of items

Velocity LBM Manufacturing is a comprehensive solution that enables execution from raw materials to the final product with ease and accuracy.

In today's challenging environment with decreasing margins, skyrocketing delivery costs, and aggressive competitors, it is essential for lumber and building materials (LBM) and millwork manufacturers to find ways to increase productivity, reduce costs, and eliminate waste.

The Velocity LBM manufacturing software provides the greatest level of flexibility and agility possible so you can proactively manage your operations with confidence.

Features:

- MFG item Configuration within Sales Orders
- Purchase Order/Sales Order Linkage
- Build for Stock
- Multi-Level Bill-of-Material configurations
- Wizard Driven Product Configuration
- Default Setup or Wizard Option for Product Configurations
- Flexible Bill-of-Material
- Special Order Component Capability
- Production Tracking
